SUMMARY

Front-end developer with solid experience in HTML5, CSS, and React, passionate about building modern, responsive, and user-friendly web interfaces. Familiar with Software Quality Assurance (SQA) fundamentals, including manual testing concepts and test case design. Seeking a front-end development internship to gain hands-on experience, contribute to real-world projects, and collaborate with experienced developers to further enhance my skills.

PROJECT

Glamora Fashion (E-commerce Store) — Final Year Project

Personal • GitHubRepo • June 2026 - August 2026

- Built a full-stack fashion e-commerce platform using the MERN stack (MongoDB, Express, React, Node.js) with Redux Toolkit for state management.
- Implemented user authentication with JWT and an admin dashboard for managing products, orders, and users.
- Developed core shopping features including product listings, cart, checkout, and order tracking.
- Built an AI-powered chatbot for personalized product recommendations based on user preferences.
- Enabled fast order tracking through the chatbot for quick, conversational status updates.

Portfolio Website

Personal • Portfolio • April 2025 - April 2025

- Built Personal Portfolio Website using HTML, CSS, and JavaScript to showcase projects, skills, and professional experience.
- Implemented responsive design and navigation to ensure smooth user experience across desktops and mobile devices.
- Added interactive elements like animated sections, hover effects, and smooth scrolling to enhance engagement.

CodePlayer

NCBA&E • GitHubRepo • February 2025 - March 2025

- Developed CodePlayer, an interactive web-based IDE allowing users to write HTML, CSS, and JavaScript code and view live output in real-time.
- Implemented a user-friendly interface to enhance the coding experience.
- Designed responsive components to ensure smooth functionality across devices.

Recipies

Riphah International University • GitHubRepo • July 2024 - August 2024

- Built a responsive and interactive frontend using HTML, CSS, and JavaScript.
- Developed backend functionality with PHP and MySQL to manage and display recipe data efficiently.
- Enabled users to discover and explore a wide variety of recipes with a smooth browsing experience.

EDUCATION

Post ADP Computer Science

National College of Business Administration & Economics • Lahore, Pakistan • 2026

ADP in Computer Science

Riphah International University • Lahore, Pakistan • 2024 • 3.65

COURSE
